FOREWORD

The Micro, Small & Medium Enterprises Development Institute, Patna has prepared an Industrial Profile of Jehanabad, District Bihar. The objective to prepare the Industrial profile of the district is to make the information readily available in respect of location, administrative set up, industrial area available, growth & trend of MSMEs, clusters etc to the existing as well as prospective entrepreneurs. The available data have been compiled and the profile is prepared. It is expected that this industrial profile will be useful for Government & non-government promotional & developmental agencies engaged in promotion and development of MSMEs in Jehanabad, District Bihar.

I take this opportunity to express my gratitude to the officers of O/o the Department of Industries, Govt. of Bihar, General Manager, District Industry Centre and Bihar Industrial Area Development Authority (BIADA) for extending their co-operation in preparing this Industrial Profile.

I also place on record my appreciation to Shri Ramesh Kumar, Asstt. Director (E.I.) and Shri Ravi Kant, Asstt. Director (E.I.) of this Institute for their hard work in bringing out report in this form.

Brief Industrial Profile of Jehanabad District

1. General Characteristics of the District

Jehanabad district was carved out of the old GAYA district on 1st August 1986. Earlier it was a subdivision of Gaya since 1872. It is situated 56 km to the south of the State Head Quarters, Patna and 47 km to the north of Gaya by road and is well connected to both the stations via an electrified rail-route as well. Again, in the year 2001, the district of Arwal was created out of the district of Jehanabad.

1.1 Location & Geographical Area.

The district covers 941.4 sq. km. of geographical area in South Bihar. The town of Jehanabad, which is the HQ of the district, is situated at the confluence of rivers Dardha and Jamuna. Lying between 25-0' to 25-15' degree north latitude and 84-13' to 85-15' degree eastern longitude, the district is bounded by districts of Patna in the north, Gaya in the south, Nalanda in the east and Arwal in the West.

1.2 Topography

According to the Planning Commission Classification, the State as demarcated now falls in middle-Gangetic Plains region. ICAR's agro-ecological division puts it under the sub-humid ecosystem. Based on more desagregated classification, the state is divided into three agro-climatic sub-zones. These are north-west angetic plains (Zone I), north-east Gangetic Plains (Zone II) and the South-Bihar Plains (Zone-III). Jehanabad district fall in agro-climatic Sub-Zone III. The average annual rainfall in the Jehanabad district is 1313 mm. This is just sufficient for the type of agriculture practiced traditionally in this district. The timely rainfall is very crucial for the type of agriculture being practised in the district and it gives a boost to increase the production. The rivers that flow through the district are Dardha, Phalgu, Jamuna, Morhar and Punpun. Most of these rivers remain dry for the major part of the year. The soil in the district is old alluvian, sandy loam to clayey, slightly alkaline in patches. The soil correction is thus important for increasing agricultural production in the district. The soil nutrient status of the district is moderate and having an average range of nitrogen and phosphorous. Fertile alluvial soil locally called "Kewal" supports the District's predominantly agricultural economy and is currently being tilled for production of paddy, wheat, cane, potato, pulses, vegetables etc.

1.3 Availability of Minerals.

As far as minerals are concerned, the district has only minor ones. The sand available with the river beds in the major part of the year is collected and transported to other parts of the district besides to the adjoining districts and is useful in construction work.

1.4 FOREST

The forest cover of the district is small- 1030 hectares, which is mainly concentrated near the Barabar Hills. They belong to the category of reserve forests.

1.5 Administrative set up.

District of Jehanabad came into existence in the year 1986, carved out of the erstwhile Gaya district. The present district of Jehanabad consists of 1 subdivision, viz Jehanabad. the district has 7 blocks , 1 nagar parishad , 5 circles with district headquarter at Jehanabad.

Jehanabad District is one of the thirty-eight districts of Bihar state, India, and Jehanabad town is the administrative headquarter of this district. Jehanabad district is a part of Magadh Division. The present district of Jehanabad comprises of the whole area of Jehanabad subdivision of the old Gaya district. The district may be divided into plain and plateau regions.
